

DUSTER & FREEZE SPRAY

Duster

Techspray dusters **blow away dust**, microscopic contaminants, lint, metallic oxide deposits and other soils that can cause heat build up or shorts in sensitive electronics.

RoHS Compliant 

- Moisture Free
- Zero Residue
- Safe on Plastics
- Non-Ozone Depleting

1673 ECOLINE DUSTER

Economical HFC-152a based duster.

- Best value — 30% more volume
- Moisture free
- 1/10th Global warming potential vs. 134a duster

1673-10S 312 mL aerosol

Note: not for use on powered electrical equipment, on hot surfaces, and around open flames or sparks.

1671 NON-FLAMMABLE DUSTER

100% non-flammable HFC-134a based duster.

- Safest choice
- Non-flammable
- Moisture free

1671-10S 234 mL aerosol
1671-10RS 234 mL aerosol refill
(for use with 1928)
1928 Chrome trigger

1671-10S

Freeze Spray

Rapidly evaporating liquid that super-chills isolated areas. Used as a troubleshooting aid for intermittently faulting capacitors, resistors, semiconductors, and other defective components. It also increases visibility of cold solder joints, cracks in printed circuit boards and oxidized junctions.

- Non-Flammable
- Safe on Plastics
- Zero Residue
- Moisture Free
- Non-Ozone Depleting

1672 FREEZE SPRAY

Pure HFC-134a freeze spray.

- Chills down to -51°C

1672-10S 234 mL aerosol

1747 ANTI-STATIC FREEZE SPRAY

Contains additive that avoids static build-up, critical when working with ESD-sensitive components.

- Avoids static build-up
- Prevents latent failures
- Chills down to -40°C

1747-10S 234 mL aerosol
