

See the light... UV light, that is

Everything you wanted to know about UV light curing materials and equipment is available in the *Dymax Comprehensive Guide to UV Light Curing Technology*, which we have just put up on our web site.

The 32 page document is an impressive piece of work, with a great deal of detail. Dymax are the only major manufacturer of both [light curing materials](#) and [light curing equipment](#). This focus on UV light curing technology coupled with the synergy produced by designing both the materials and equipment uniquely positions DYMAX as the technical leader in the field.

You can download the *Comprehensive Guide* from our [Technical Resources](#) page.
