

DYMAX on the move

Description

Key sales partner **DYMAX** is moving in the autumn. We have been selling their range of [UV curing adhesives & coatings](#), as well as [UV curing equipment](#), for many years, and are their leading European distributor.

Well, success and growth has meant that they need new, bigger premises. They are letting everyone know well in advance, and have made detailed and careful plans to both cope with the move, and to continue satisfy their customers to their usual exacting levels during the move. There is a letter describing these plans [right on the front of their web site](#).

Congratulations on the new building!
