

# The most powerful "green" cleaners on the market

We are very pleased to announce our new range of ecologically-friendly **RENEW** products from sales partner **Techspray**.

The innovative **Techspray RENEW** line takes advantage of current *green* technology, and still maintains the cleaning strength Techspray products are known for. Techspray's goal was to create *eco-friendly products* that surpass what is currently available on the market by taking advantage of our decades of experience in solvent cleaning. Initial feedback from customers indicates they've hit the mark!

The benefits of RENEW products are many, including:

- Low Ecological Impact – low VOCs and no global warming impact
- Sustainable and Biodegradable – uses materials such as corn-based ethanol, seed oils, soy-based oils, and citrus-based oils
- Recycled/Recyclable Packaging
- Regulatory Compliant – meets European REACH and WEEE requirements

Two innovative products in particular are designed specifically for industrial applications: **ECO-SHINE™ Glass and Surface Cleaner** and **ECO-SHOWER™ Cleaner and Degreaser**. Both are effective, safe, and eco-friendly, and feature the following advantages:

- Non-flammable
- Biodegradable
- Low VOC, zero GWP
- Non-ozone depleting

**ECO-SHINE™ Glass and Surface Cleaner** cleans glass, stainless steel, chrome, mirrors, tile, plastic, ceramic, and enamel. It vigorously removes fingerprints, light oils and other soils, all while leaving

# The most powerful "green" cleaners on the market

behind a streak-free finish.

**ECO-SHOWER™ Cleaner and Degreaser** uses naturally-based ingredients like citrus and soy oils to soak in and quickly cut through oil and grease. ECO-SHOWER Cleaner and Degreaser can be used full strength for heavy grease or diluted with water for general cleaning. It is ideally used for cleaning tools, parts, shop equipment, motors, and industrial working surfaces, and leaves behind a high-gloss finish, perfect for use with stainless steel.

The Techspray lab has worked vigorously to give our customers *ecologically sustainable alternatives* that will suit their needs.
