

Electrically and thermally conductive adhesives - new products!

We are very pleased to announce that we have signed a distribution agreement with expert German adhesives manufacturer, [Polytec PT](#).

Polytec PT offers a range of [high technology adhesive products](#) for micro-electronics, hybrid circuits, chip-on-board (COB), LEDs, component manufacture, displays, flexible circuitry, shielding, medical devices and optics/opto-electronics.

The range consists of:

- Electrically conductive adhesives
- Thermally conductive adhesives
- Optic adhesives
- Polyimide adhesives

The adhesives are offered in process convenient packages, including twin-packs and *pre-mixed and frozen*.

The [Polytec PT Selector Guide](#) describes the range of adhesives, including detailed technical data. In its pages there is a [comprehensive guide to high tech adhesives](#), so it's well worth downloading!
