

Electrically and thermally conductive adhesives - new products!

We are very pleased to announce that we have signed a distribution agreement with expert German adhesives manufacturer, [Polytec PT](#).

Polytec PT offers a range of [high technology adhesive products](#) for micro-electronics, hybrid circuits, chip-on-board (COB), LEDs, component manufacture, displays, flexible circuitry, shielding, medical devices and optics/opto-electronics.

The range consists of:

- Electrically conductive adhesives
- Thermally conductive adhesives
- Optic adhesives
- Polyimide adhesives

The adhesives are offered in process convenient packages, including twin-packs and *pre-mixed and frozen*.

The [Polytec PT Selector Guide](#) describes the range of adhesives, including detailed technical data. In its pages there is a [comprehensive guide to high tech adhesives](#), so it's well worth downloading!

Electrically and thermally conductive adhesives - new products!

The image shows the cover of a 'Polytec PT Adhesives Selector Guide'. At the top right is the Polytec PT logo with the tagline 'Polymer Technologies'. Below the logo, the word 'Adhesives' is written in a bold, black font. In the center, the words 'SELECTOR GUIDE' are printed in a light grey, all-caps font. The middle section features a grid of six images: a close-up of a circuit board, a hand applying adhesive from a tube, a hand using a red-handled applicator on a yellow component, a hand holding a tube of adhesive, a close-up of a circuit board, and a close-up of a circuit board. Below the grid, the 'adhere' logo is displayed in a stylized font. To the right of the logo, the text 'For Electronics, Medical and Optics' is written. At the bottom left, a box contains the following contact information: 'adhere is a brand of Polytec PT Ltd', 'Unit 17 Station Field Industrial Estate', 'Kings Norton', 'Duddeston, CV5 1JL, BRISTOL', 't 0181 842042 - e info@adheretronics.co.uk', and 'www.adheretronics.co.uk'.
