

Dummy components display case brings training and presentations to life

Practical Components, our partner in the supply of [dummy components](#), has introduced a display case containing a sampling of components.

The display case includes components ranging from the latest in high technology (01005s, PoPs, CVBGAs and flip chips) to standard SMT packages (PBGA, MLFs, QFPs and TSOPs). The display case is equivalent to a CD case for portability. The case is educational, providing a quick, portable show-and-tell representation for students, coworkers, customers and vendors.

This display case contains the following sample components:

- PoP Top Package on Package
- PSvBGA Bottom Package on Package
- CVBGA Very Thin ChipArray®
- PBGA Plastic Ball Grid Array
- QFP Quad Flat Pack
