

## We are exhibiting at Mediplas 2012 - medical device plastics and assembly

Next month, September 25-26, we will be exhibiting at **Mediplas** at the NEC, Birmingham. **Mediplas** is a new focused event for the highly specialised area of manufacturing plastic parts for the medical industry. The exhibition will cover all areas of the medical plastics supply chain – including design and prototyping, materials, clean room machinery (extrusion and injection moulding), process control and sensing, mould making and temperature control, end of line/assembly, regulation and contract manufacturing.

We will be showing our wide range of [ISO 10993 and USP Class VI medical device adhesives](#) for bonding most substrates used in the medical device industry. These include [DYMAX medical grade UV curing](#) and [cyanoacrylate adhesives](#), [Opti-tec medical grade epoxy adhesives](#), and [Polytec medical grade conductive adhesives](#). We also specify and supply the complete range of UV curing equipment and accessories, dispensing equipment and mixing, metering and degassing systems and can advise on the most suitable adhesive systems for your products and processes.
