

New high viscosity cyanoacrylate adhesive offers resistance to peel and impact

We have added a new product to our range of professional [cyanoacrylate adhesives](#). [ADH 9485](#) is specifically formulated for applications requiring **both** a high viscosity and resistance to peel forces and impact. It develops strong bonds on most metals, plastics or rubbers in seconds.

ADH 9485 can be ordered in a 500 gram bottle, allowing simple application from one of our specialised [cyanoacrylate dispensing systems](#).

New high viscosity cyanoacrylate adhesive offers resistance to peel and impact
