

Investment in Technology Centre for customers

We have always been keen to invite customers and prospects to our **Technology Centre**, so that we can discuss your bonding and coating projects. We have been delighted to host hundreds of you over the years, and to help you to evaluate materials and a wide range of dispensing, mixing and curing equipment.

Well, we have decided to greatly enhance this facility. This picture shows the existing rooms, which have been stripped out and are awaiting the builders. We are knocking down walls, raising ceilings, and installing new work benches. The space will be much bigger, and will allow us to have more equipment on display and available for trials and testing.

This is a “Before” picture...

It’s going to take four or five weeks; we’ll show you the “After” picture soon!
