

Video: Dymax BlueWave LED Prime UVA Spot Curing System

Description

LED UV curing systems from Intertronics offer a number of significant advantages over conventional, broad-spectrum UV curing lamps. The [Dymax BlueWave LED Prime UVA Spot Curing System](#) provides focused curing using high-intensity 385nm LEDs. Benefits include no warm up or cool down time, no degradation in output over time and lower running costs. The cool curing temperature is ideal for sensitive substrates and components such as polycarbonate, PVC and PET.
