

Video: Dymax SpeedMask - temporary masking resins with fast curing, easy removal

We offer a range of temporary masking resins that provide reliable and cost effective protection for critical surfaces and cavities during finishing operations. [Dymax SpeedMasks](#) cure in seconds upon exposure to UV/visible light and replace traditional masking materials such as tapes, lacquers, waxes, boots and caps. **SpeedMask** resins are easily applied, and are available in peelable, water-soluble and burn-off grades that leave component surfaces residue-free. Formulations are available for a full range of processes, including acid stripping, anodising, chemical milling, grit blasting and plating.
