

ADH1616 Low linting dry wipes for industrial cleaning

We have added a **new wipe** to our range of

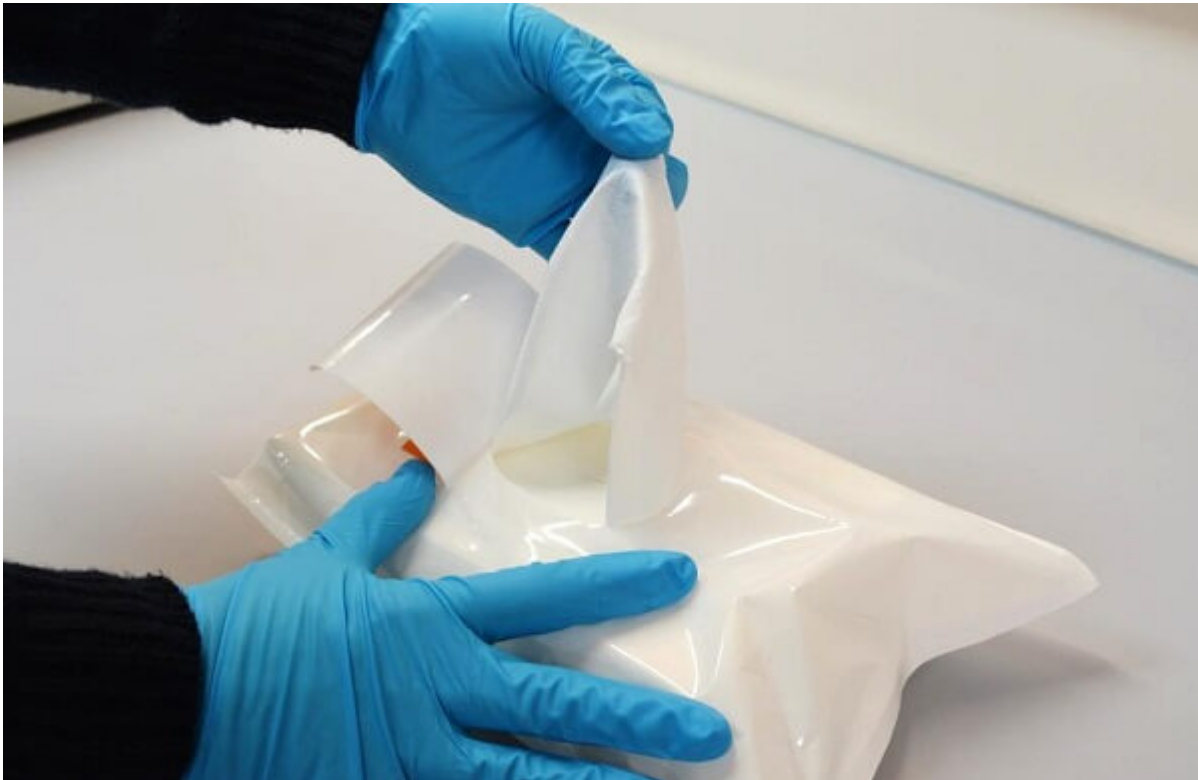

cleaning products, which offers **robust performance and excellent absorption**. The **ADH1616 Low Linting Dry Industrial Wipe** is a strong and durable wipe composed of a non-woven polyester cellulose. It can be used dry, to absorb liquids or spills, or with a solvent like IPA. You won't have to worry about contamination from binders or optical brighteners, as these wipes are manufactured without additives like these.

You may already be familiar with our **pre-saturated IPA wipes**, available in individual sachets or resealable pouches. The ADH1616 wipe provides the same performance in a dry format. Offered in a

ADH1616 Low linting dry wipes for industrial cleaning

resealable pouch, the ADH1616 wipe is available from stock for **next day delivery** and is an economical choice for a wide range of cleaning applications.

ADH1616 Dry Industrial Wipes evaluation packs are available, [just give us a call to request yours](#) or for more information on the ADH1616 wipe or [any of our cleaning products](#) feel free to get in touch.
