

Seminar: When to use silicones in electronics applications

We are happy to be presenting a seminar at the next FAST Live exhibition on September 19 2019, entitled ***When to use silicones in electronics applications***. When it comes to adhesives and sealants, there are a variety of chemistries to choose from. Epoxies, polyurethanes, UV-curing adhesives, methacrylates, and others all have their own strengths, but when should you be considering silicones? With experience and expertise in many kinds of adhesives, we will be focusing on the particular areas that silicones can provide an advantage in electronics applications, including potting, sealing, ruggedising, and component protection.

When to Use Silicones in Electronics Applications

When it comes to adhesives and sealants, there are a variety of chemistries to choose from. Epoxies, polyurethanes, UV-curing adhesives, methacrylates, and others all have their own strengths, but when should you be considering silicones? With experience and expertise in many kinds of adhesives, Peter will be focusing on the particular areas that silicones can provide an advantage in electronics applications, including potting, sealing, ruggedising, and component protection.

Peter Swanson, managing director
INTERTRONICS

Five things you will learn when you attend:

1. What is silicone? What are the properties and cure mechanisms?
2. What advantages do silicones offer?

Seminar: When to use silicones in electronics applications

3. Specific applications in electronics where silicones might be suitable
4. How to dispense/apply silicones
5. What questions to ask your adhesives supplier about silicones

The **FAST Live** exhibition is the UK's specialist fastening, bonding and assembly event for design engineers, production professionals, manufacturers and fastener buyers. The exhibition and seminars are free to attend – just [register before you come](#). The seminar content is accredited by CPD so attendance will count towards your Continuing Professional Development portfolio.

See you there – Thursday 19 September 2019, 08:30 – 14:30, The National Conference Centre, Solihull.
