

# Seminar: Achieve Your Productivity Potential with UV Light Curing Adhesives

We will be giving a seminar at [Engineering Solutions Live](#), Thursday 12th March, entitled ***Achieve Your Productivity Potential with UV Light Curing Adhesives***, and we'd like to invite you to come along.

Manufacturing in the UK is strong, but productivity remains a concern. [Adhesives, coatings and protective materials which cure with light](#) can offer significant process as well as functional improvements to an assembly. This seminar will present an overview of the technology, including how it works and example applications. It will then focus on advances which can help improve productivity, both in light curable chemistry and the curing equipment, backed up by case studies.

**Achieve Your Productivity Potential with UV Light  
Curing Adhesives**

**Peter Swanson**  
**Managing Director, INTERTRONICS**

# Seminar: Achieve Your Productivity Potential with UV Light Curing Adhesives

The seminar takes place within the Engineering Solutions Live exhibition, held at [The British Motor Museum in Gaydon, Warwickshire](#). Our team will be on-hand to chat through any adhesives or dispensing challenges you might have. [Entry is free, but by pre-registration only, so click here](#) to book your attendance and seminar place at the same time.

We hope to see you on Thursday, 12 March!
