

Sealing the Deal - liquid gaskets

We were thrilled to open this month's issue of [*Eureka*](#) magazine to find our article about liquid gaskets on page 27. Our colleague Matthew Baseley did a great job on this. You can read about the considerations of moving to this technology, away from solid preformed or stamped gaskets, including a discussion about return on investment, [here](#).

SEALING THE DEAL

Liquid gaskets are an established way of sealing electronic devices, ensuring they are fully protected from water, pressure, vibration or contaminants. Matthew Baseley, Technical Sales Executive at adhesives and dispensing equipment specialist Intertronics, discusses the considerations.

processes that involve laying a strip of pre-formed material into

costly inventory of gaskets of different shapes and sizes, to ensure product is on hand.
