

# Brush Dispensing Tips

## Description

Also available to buy online at [!\[\]\(666e09182d4cd268646ea700ea60dcdf\_img.jpg\)](#) **SHOP** 

Brush dispensing tips are used for the spreading of adhesives, greases, oils and other materials. These industrial grade dispensing brushes come in hard and soft bristle options and a range of diameters with round and flat styles according to application requirements. They have a tapered design to improve fluid flow. They are silicone free and can operate with a maximum input pressure of 100psi.

This range is BSE/TSE compliant making these brush tips suitable for the demands of the medical device manufacturing industry.

All of our dispensing tips have the [standard luer fitting](#), so are suitable for use with our [dispensing barrels](#) and [manual syringes](#), as well as most other dispensing barrels and syringes on the market.

## Features & Benefits

- For spreading adhesives, oils, greases and other materials in dispensing applications
- Can be used in manual and automated processes
- Available in hard and soft bristle options
- Available in flat and round styles

# Brush Dispensing Tips

- Silicone free
- BSE/TSE compliant – suitable for the medical device industry
- Threaded luer lock fittings for universal compatibility
