

G3 Flux Remover

Description

Also available to buy online at [!\[\]\(666e09182d4cd268646ea700ea60dcdf_img.jpg\) SHOP !\[\]\(1ef1ef0bf9af6c6996401964cf280f2d_img.jpg\)](#)

The patented cleaning process of **G3 Flux Remover** is non-flammable, and an alternative to other products that contain HCFC-141b or HFE. It is designed specifically for removing R, RA, RMA and SA type flux residues after high temperature reflow. This flux remover can also be used as an all-purpose cleaner to remove light oils, silicones, waxes, greases and other similar contaminants often found in electronics manufacturing.

Techspray launched a new generation of cleaning technologies with their G3™ solvents. The patented G3 process is the most innovative in alternative cleaning technologies. These new solvent blends are an excellent replacement for solvents based on flammable alcohols or very expensive HFE's.

Techspray's G3 solvents have excellent cleaning ability, are non-flammable, non ozone depleting, rapidly evaporating, safe on most plastics and have low odour.

Features & Benefits

- Non-flammable
- Effective cleaning
- Non ozone depleting

G3 Flux Remover

- Rapidly evaporating
- Safe on most plastics
- Low odour
