

QuantX Manual Syringe Barrel Plungers

Description

Also available to buy online at  **SHOP** 

Made from durable acetal plastic, **QuantX™ Manual Syringe Barrel Plungers** are an ergonomic, lightweight and reusable option for manually dispensing a variety of fluids from pre-filled, machine ready syringes.

This range of manual plungers is fully compatible with both the [QuantX series of syringe barrels and pistons](#) and other dispensing syringe brands.

Available in 3 – 30cc sized variants, the QuantX manual plunger is convenient for use during initial material trials and low volume applications such as repair work. For a low-cost dispensing method with greater control and accuracy, we recommend a [dispense controller](#).

Features & Benefits

- Compatible with the QuantX product line

QuantX Manual Syringe Barrel Plungers
