

Vortex 360° Renew Nonflammable Aerosol Duster

Description

Also available to buy online at [!\[\]\(666e09182d4cd268646ea700ea60dcdf_img.jpg\)](#)
SHOP 

Techspray Vortex 360° Renew Duster is formulated with HFO-1234ze propellant, with a fraction of the global warming potential (GWP) of HFC-134a and HFC-152a based dusters. Renew Duster produces a high velocity stream of compressed gas for safe and efficient cleaning of electronics and precision parts, including hard-to-reach areas.

Renew Duster is nonflammable, odourless, low toxicity and non-ozone depleting and safe to use on energised equipment. This duster complies with the requirements of the EU F-Gas Regulations (517/2014), which ban the sale of technical aerosols containing materials like HFC-134a.

Features & Benefits

- Non-flammable, safe to use on energised equipment
- Non-ozone depleting
- 360° valve – sprays upside down
- Complies with requirements of EU F-Gas Regulations (517/2014)
- 100% pure HFO-1234ze
- Moisture free
- Zero residue

Vortex 360° Renew Nonflammable Aerosol Duster

- Safe on plastics
- VOC exempt
- Non toxic, non corrosive

Applications

Suitable for a variety of electronic assembly, electronic repair, electronic testing and electronic cleaning applications including removing microscopic contaminants, lint, dust, metallic oxide deposits and other soils. Cleaning of optics, lenses and other precision parts.

Specifications

| Specification | |
