

1.4 QUALITY POLICY

It is the policy of INTERTRONICS to maintain a Quality System designed to meet the requirements of ISO 9001:2015 in pursuit of its primary objectives, the purpose and the context of the organisation.

It is the policy of INTERTRONICS to:

- give satisfaction to all of our customers, other stakeholders and interested parties whenever possible, meeting and exceeding their expectations;
- comply with all legal requirements, codes of practice and all other requirements applicable to our activities;
- drive the reduction of hazards, prevent injury, promote good health & wellbeing, comply with our environmental responsibility and encourage sustainability;
- provide the resources of equipment, trained and competent staff and any other requirements to enable these objectives to be met;
- ensure that all employees are made aware of their individual obligations in respect of this quality policy;
- maintain a management system that will achieve these objectives and seek continual improvement in the effectiveness and performance of our management system based on the understanding of risk and recognition and development of opportunities.

This quality policy provides a framework for setting, monitoring, reviewing and achieving our objectives, programmes and targets.

Our quality process is at the heart of the value we give to our customers and to ensure this is fulfilled, all employees receive training to ensure awareness and understanding of quality and its impact on customer service.

To ensure the company maintains its awareness for continuous improvement, the Quality System is regularly reviewed by our Senior Management Team to ensure it remains appropriate and suitable to our business. The Quality System is subject to both internal and external annual audits.
