

## BENEFITS OF

# SPEEDMASK<sup>®</sup>

## FOR AEROSPACE AND DEFENSE APPLICATIONS

Discover how SpeedMask solvent-free and light-curable maskants replace labor-intensive tape, wax, lacquers, and fixtures to offer reliable protection against mechanical surface treatment processes.

### HOW SPEEDMASK CAN PROTECT

#### GRIT BLASTING

Cured maskants provide reliable protection from media such as aluminum oxide, garnet, plastics, and organic media. The cured resin absorbs the energy from the air stream blast, while the media bounces off the masked surface, protecting the area underneath.

#### SHOT PEENING

Maskants are resistant to various peening media (such as cut wire, round metal, ceramic particles, and glass beads). They can also resist pressures used in peening applications.

### WHAT SPEEDMASK MASKANTS PROTECT

#### COMPONENTS FOR COLD SECTION:

- Fan Blades
- Compressor Blades and Vanes
- Turbine Disks
- Compressor Lines and Cases
- Fluid Line Fittings
- Integrated Blade Rotors
- Air Seals
- Combustion Liners and Cases

#### COMPONENTS FOR HOT SECTION:

- Hot Section Blades and Vanes (Single Airfoils)
- Stacked Vanes
- Combustion Cases and Liners
- Nozzle Guide Vanes
- Many, many more components

### FEATURES

- UV Technology Offers Time and Money Savings
- Easy, Instant Application
- Conformation to Complex Shapes
- On-Demand Curing - < 1 min
- Single Layer Coverage
- Clean Removal from Non-Porous Surfaces
- Greener Process - Solvent Free with 100% Solids

### BENEFITS

- Protect Component Surfaces During Either Mechanical or Chemical Surface Treatment Processes
- Prevent Rework and Scrap from Masking Failures
- Eliminate Labor-Intensive Masking Methods

< 1 min

Up to 30% Savings

### TYPICAL PROCESS FOR USING SPEEDMASK PRODUCTS

APPLY LIQUID MASKANT

CURE IN SECONDS WITH UV LIGHT

SURFACE TREATMENT PROCESS

REMOVE MASKANT

SpeedMask maskants seal and protect machined, ground, or polished surfaces during tumbling, peening, abrading, plating, plasma-spray coatings, anodizing and plating or cleaning processes.
